STOTELĖS PRIJUNGIMO INSTRUKTAŽAS

Susikūrus stotelę mūsų programėlėje, gautus duomenis reikės susivesti savo stotelės programėlėje. Morek stotelės versija (firmware) turi būti **A0-MEV-V2.1.7**. Stotelės atnaujinimo instruktažas pateikiamas dokumento pabaigoje.

The screenshot shows the 'Configuration' screen of the MOREK device. At the top, there is a yellow header with a back arrow, the title 'Configuration', and the 'MOREK' logo. Below the header, the device model 'BL602-BLE-DEV' is displayed. The screen contains several toggle switches for 'WiFi', '4G', and 'LAN'. The 'WiFi' toggle is turned on (red), while '4G' and 'LAN' are turned off (grey). Below these toggles, there are input fields for 'WiFi SSID' (set to 'Parkingas'), 'WiFi Password' (masked with dots), '4G APN' (with a hint 'Max length: 32 characters'), '4G Account' (with a hint 'Max length: 32 characters'), '4G Password' (with a hint 'Max length: 32 characters'), 'IP Address' (set to '192.168.112.191'), 'Subnet Mask' (set to '255.255.255.0'), 'Default Gateway' (set to '192.168.112.1'), and 'DNS' (set to '192.168.111.1'). There is also a 'LAN DHCP' toggle which is turned on (red). At the bottom, there are input fields for 'Server URL' (set to 'wss://test-ocpp.circlelink.app/ws/'), 'Charger ID' (set to 'U0000072S001'), and 'Authorization Key' (masked with dots). Each password field has an eye icon to toggle visibility.

Server URL – OCPP URL, kurį gavote iš CircleLink programėlės

Charger ID – ChargerID, kurį gavote iš CircleLink programėlės

STOTELĖS FIRMWARE ATNAUJINIMAS

Siekiant atnaujinti stotelės programinę įrangą, reikia nueiti į „Update Firmware“ skiltį. File name suveskite „**A0-MEV-V2.1.7**“ ir paspauskite Update. Kilus problemoms su firmware atnaujinimu, susisiekite su **MOREK** support.
