

SOLAR EDGE

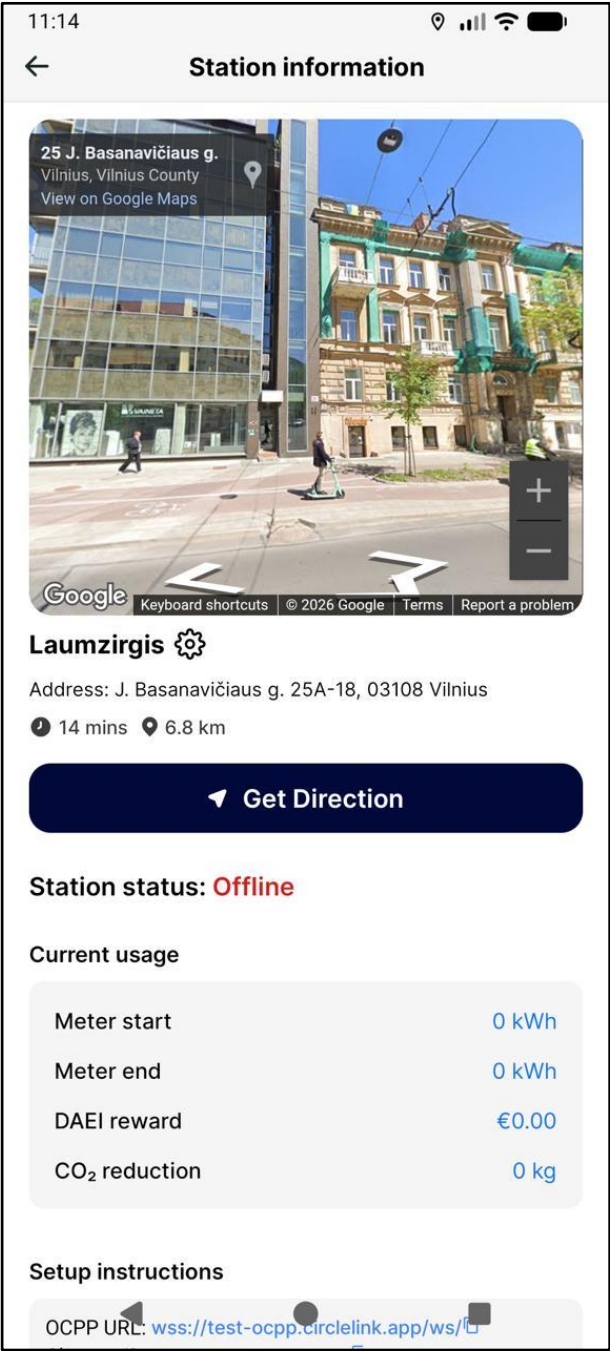

STOTELĖS PRIJUNGIMO INSTRUKTAŽAS

Susikūrus stotelę mūsų programėlėje, gautus duomenis reikės susivesti savo stotelės programėlėje:

The screenshot shows the 'Backoffice' screen of the SolarEdge app. At the top, the status bar shows the time 21:06, signal strength, Wi-Fi, and 69% battery. The app header is 'Backoffice' with a back arrow. Below, there's a section for 'Current Backoffice' and a toggle for 'Other Backoffice' with a warning icon. A form contains three fields: 'URL:' with the value 'wss://ocpp.circlelink.app/U0000701S5MP0LIH', 'Charger identity:' with the value 'The Serial Number (SN) of the charger', and 'Password' with masked characters '*****'. A note states: 'Please note that switching Backoffice may result in the discontinuation of services provided by your current Backoffice and an automatic restart.' Below the note are three selectable options: 'SolarEdge Home' (residential installations), 'SolarEdge ONE EV for C&I' (commercial and industrial installations), and 'Use Offline' (unmanaged charger).

URL – OCPP URL, kurį gavote iš CircleLink programėlės

Atsidarę CircleLink programėlę nueikite į savo stotelės nustatymus:

Paspauskite **krumpliaračį**

11:14    

← **Station configuration** 

General information

Station Name

Laumzīgis

Station Id

U0000002SBZH17SQ

 Changing Station ID breaks the OCPP connection. Change with care.
